

A8 – Vertical prototype

The vertical prototype includes the implementation of two user stories (login and create project) using Laravel and Docker.

1. Implemented features

1.1. Implemented user stories

User story reference	Name	Priority	Description
US01	Sign-in	high	As a <i>Visitor</i> , I want to log-in into the system, so that I can access privileged information.
US02	Home page	high	As a <i>Visitor</i> , I want to access the website's homepage, so that I can see it's brief presentation (home, about us, projects and contacts sections).
US03	Log out	high	As a <i>User</i> , I want to be able to log out from the system.
US04	Create project	high	As a <i>User</i> , I want to be able to create a new project.

1.2. Implemented web resources

Module M01: Authentication and individual profile

Web resource reference	URL
R101: Login form	 /login
R102: Login action	POST /login
R103: Logout action	POST /logout
R106: View personal information	 /{id}/personalInfo
R118: View user's projects	 /{id}/projects

Module M07: Static pages

Web resource reference	URL
R702: Homepage	 /home
